Hazleton Casting Company announces the hiring of new Q.A. Manager

Hazleton, (PA), Friday January 11, 2008-Michael J Leib, President of Hazleton Casting Company, announced the appointment of **Frank Lee** to their team at Hazleton Casting Company. Frank most recently was a quality engineer at Magee Rieter Automotive Systems before joining Hazleton Casting Company.

Mr. Leib stated, "I am delighted to announce the addition of Frank to our group at Hazleton Casting Company. Frank brings excellent credentials to his position and will be challenged by the ever increasing demands for continuous improvement throughout our manufacturing process in order to serve our customers better."

Located in Northeastern Pennsylvania, the **Hazleton Casting Company** ensures quality alloy castings for a wide range of specialty alloys. Since the 1930's, the iron and steel foundry has been casting pump components and pressure containing parts such as pump casings and valve bodies-serving the Pump, Material Handling, Power Generation, and Chemical Process Industries.
